LINE STORY

Explore the bronze boundaries of your true self with Versus. In this world, you're free to be who you really are or who you've always wanted to be. Soft and sweet or bold and edgy – or maybe even both. The Versus collection offers unique experiences for the different sides in all of us, but always the same color boosting core. Choose your story. With this decadent Optimizer, discover your darkest side that is undeniably outspoken, brave, and strong.

COLOR TECHNOLOGY

Enhanced Bronzers: A powerful blend of cosmetic bronzers and colorants provide dark, instant color to the skin. DHA develops long-lasting color that is unrivaled. This unique formulation is enhanced with Melanin Activated Peptide and Black Truffle to help stimulate melanin production for an added boost of color.

CuO₂® and TRF™: Each is an advanced tanning technology with copper and oxygen promoting ingredients to energize skin for deeper, darker tanning results which gives amplified color.

SKINCARE TECHNOLOGY

pH Balancing Blend: When skin's pH is unbalanced it cannot easily support normal skin functions. This blend optimizes and enhances skin's pH level, priming it for optimal, long-lasting color results while also helping protect skin.

Detoxifying Skin Blend: Blends Charcoal with other skin loving ingredients to help detoxify, protect, and improve overall skin appearance.

Kiwi Extract: Antioxidant rich, this extract helps neutralize free radicals to prevent skin damage. Amino acids help skin maintain a healthy, supple appearance.

Papaya Extract: Contains an extraordinarily high level of Vitamin C, which is known to increase collagen synthesis for youthful-looking skin.

AVAILABLE SIZES

8oz Bottle | .5oz Packette
